BULLETIN #40 – January 13, 2010

New Sample Transportation System- Update

Congratulations to the many hospitals that have successfully transitioned to the new Purolator transportation system. We have already seen a great improvement in sample transportation time.

If you have transitioned to Purolator, please return your Canada Post Xpresspost Envelopes to us. We will store them for use in the event of a Purolator down time period.

For Midwifery Practices:

We are currently in the process of developing a Purolator educational package specific to your needs. Our goal is to have this available by the end of January and to transition your practices to Purolator by February 28, 2010.

We are currently missing contact information from the following hospitals/clinics:

AJAX & PICKERING HEALTH CTR
