BILIARY ATRESIA SCREENING TRAINING TOOL

1. Answers to the questions inside are in the '*Frontline Script for Biliary Atresia Screening*' Document
2. Cut along dotted line, fold in half and then in half again the other way; unfold to flat again
3. Flip over (blank side up) fold the corners to the middle, so all 4 points meet
4. Turn over and repeat; turn it over again, so you can see the diaper logos
5. Slide your index fingers and thumbs in the flaps, putting the points together

Cut around the grey square outline
